Sing, Dance, Strum & Learn all summer long with two of our family music programs at one budget-friendly price. Join us for live, online Music & Movement classes for families with kids ages 0-8 and all-ages Guitar & Ukulele classes.

Music Together®

Incorporating songs, rhymes, movement, and instrument play, Music Together is a world-famous research-based music program for families with children ranging from babies to 8 years of age.

Through Music Together, kids experience a wide range of musical experiences that support learning basic music skills such as: creative musical expression; rhythm and tonal competence; composing, conducting & choreographing; independent singing; and confidence in movement. Music Learning impacts learning other skills:

0–10 months

8 months – 3 years

4–8 years

- Key musical, physical, expressive skills
- Key coordination, behaviours & social structures
- Positive parent-child interactions

- Language acquisition
- Emotional, social and physical responses
- Learning habits & dispositions
- Motor skills
- Cognitive abilities

- Leadership and social skills
- Executive functions
- Emerging math skills
- Creative problem-solving
- Cultural appreciation

The Music Together® curriculum includes a mix of original songs and traditional tunes from the folk, jazz, and world music traditions. By presenting a range of musical styles, Music Together provides children with a rich music experience that stimulates and supports their growing music skills and understanding.

Music Together's nine song collections are presented in a three-year cycle of three semesters per year. Collections each include a recording and songbook and are designed to be used one collection per semester; Collections are also non-sequential so families may join any semester and attend class at any time.

Because music learning is cumulative, with children reaping developmental benefits that build over time, we encourage their participation for as many years as possible from infancy through kindergarten.
